

## **B Machines**

One machine is labeled A machine; the other machine is labeled B machine. Open and check both machines when you arrive at the polling site. Voters may vote on either the A machine or the B machine. In the poll book you must indicate which machine the voter used. You will have one poll book. Example: the first voter on the A machine is 1A. The second voter on the B machine is 2B. It is important that you keep accurate records on which machine the voter used. At the close of the polls you will need to canvas both the A machine and the B machine. Read the numbers off the back of the voting machine, and record them on the canvas sheets. The A machine total and the B machine total is added together on the canvas sheet. Follow normal closing procedures for the machines, but place all of the non-orange dotted supplies in the B Machine only
